

**Position:** Web Portal Developer

**Location:** Remote

**Member Type:** Unpaid Voluntary Internship

### **Organization Description**

The Open Health Systems Laboratory (OHSL) is a public benefit corporation that builds, supports and manages project teams to improve research and diagnosis outcomes. We have technical expertise in utilizing the latest developments in information technology, namely informatics, communication, natural language processing, and data collection and mining to bring solutions to our clients.

OHSL was originally created in 2008 as a program of the International Network for Cancer Treatment and Research (INCTR), a not-for-profit organization dedicated to helping build capacity for cancer research and treatment. In 2011, OHSL incorporated as an independent non-profit organization, and re-incorporated in 2017 as a public benefit corporation (B-Corp).

### **Internship Description**

The OHSL portal at <https://ohsl.us> is the primary channel for receiving member application requests. This portal needs to be enhanced for posting open positions, reviewing resumes, providing feedback, and communicating with candidates.

The internship is a fantastic opportunity for high school students who want to pursue a career in web development and computer programming.

### **Qualifications**

- Currently enrolled in high school
- Basic experience with web application development and open to learning new frameworks and technologies
- Need to have your own computer with Internet connection and appropriate IDE

### **Hours**

Summer interns are expected to work a schedule with a minimum of 10 hours per week. The internship can be extended beyond the summer and is flexible.

### **How to Apply**

Apply at this link: <https://ohsl.us/high-school-internship-recruitment-program>

In your resumé, please include relevant coursework and extracurricular activities/hobbies.
